

July 11, 2022

Attention ALL Residents

We will be testing the emergency generator on
Wednesday, July 13, 2022, at 7:30am.

Sometime during testing, the common areas will
switch over to our emergency lighting system. This
test will also recall the elevators in each Tower to
the main lobby.

In addition, your key fobs may not be active and the
garage gates may be stuck open. Should this occur
staff will be posted at each gate for security
purposes.

All systems will be returned to normal operation as
soon as possible.

Thank you,

Laurie Carroll
Building Manager
